

Hi,

Well, day #3 was fun. I managed to spend some time to have a look at the track activities and I was very pleased by what I saw. Everyone now know what the numbers are on tyres and how to work out the offset on rims, however, I think everyone enjoyed the fire extinguisher exercise more. (A huge thanks to Ron Goldfinch and Fire Safe Electrical for the fire extinguishers)

Day #4 will give parents an opportunity to join in during the Motorkhana. Parents are able to either join their son or daughter in the passenger seat during the 2S or Motorkhana activities, or take part in the Come'n'Try Motorkhana. I'm currently writing up future regs to include the Come'n'Try into our event. If you want to be part of the Come'n'Try, you need to obtain a L1 licence on the day which costs \$25. (you can upgraded to a L2S licence with 60 days and only pay the difference of \$80) Don't forget, EVERY passenger needs to complete the CAMS passenger in vehicle disclaimer form. Click [HERE](#) for the form so you can complete it prior to the JDP.

I have added the PDF file for the SA Motorsport Park disclaimer to the website so you are able to complete that prior to the JDP.

For those 16 or older and interested in the Clipsal 500 young officials program, there is a Superkart/Mod Reg meeting on 7<sup>th</sup> December which would be a great opportunity to get some experience as a flag marshal or scrutineer.

The 6 hour relay will be in May 2015. To qualify, you need to do at least 1 Mallala event before the 6 hour, this could be a sprint or a regularity. Let me know if you are interested and want to be part of the JDP team.

### **CAMS Event Entry**

I've been too busy to do the CAMS Event Entry, so use the paper forms that are now on the website.

### **Homework**

Refer to General Requirements – Schedule D : Apparel in the CAMS manual and find the apparel requirements for Club level speed events.

## Day 4

Circuit Excel will be joining us on Day #4.

We will also spend some time in the workshop to install a bonnet clip and a 4 point harness.

## Car upgrades

Big thanks to Walkom Racing for donating a 4 point harness.

See everyone on Saturday 29th

Cheers,

Darren Mattiske (Mobile 0412 823 171) & Paul Wise (Mobile 0403 938 573)

## Coming Events

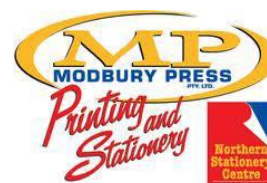

15-16 November	OZGymkhana	SA Motorsport Park
7 December	Superkart/Mod Reg	Mallala

## Internet Motorsport Sites

If you are interested in engineering and car modifications, checkout "Project Binky" on youtube. 2 Pommy guys are shoehorning the running gear from a Toyota Celica GT-4 into a mini. (Lots of angle grinding and welding)

Check out [www.powerblocktv.com](http://www.powerblocktv.com) – you can watch full episodes of Horsepower, Muscle Car and other great shows. Lots to learn if you are thinking of preparing a race car or working on your own car. (Not bad you can understand inches)
