Tarmac Junior Development Program

Introduction

Human Beings born into the world begin to challenge and determine the limits of everything that confronts them from that day on. To do so is perfectly natural. As we travel through life's journey we develop an understanding of our limitations and pick up our skills along the way.

Young people with motor cars generally demonstrate a desire to experience the limits of both their ability and their machine. To enable this in a controlled and safe environment is surely the responsible thing for any community to do.

The Tarmac Junior Development Program is aimed at enabling young people (from 12 to 17) to participate in activities that take place in well organised, highly disciplined and controlled environments. Tarmac Junior Development Program Association of SA, in conjunction with the participating CAMS Car Clubs, have enabled this project to happen.

The Tarmac Junior Development Program is more than just assisting young people with the development of good motoring skills.

Yes, TJDPSA does believe that letting young drivers develop an ability to cope with a motor car, prior to the official civil driving licence minimum age, does make them better and safer public road users.

However, just as importantly, and perhaps even more so, the Tarmac Junior Development Program is about helping young people with their general personal development. This is achieved by introducing them into the extended family environment that exists within the participating CAMS Car Clubs.

TJDPSA believe that car clubs play a very important role in the general community. The participating Car Clubs offer great opportunities for young to improve their confidence and ability to cope with life, by assisting them to develop positive vital day to day social and personal skills. These skills include self-discipline, self-promotion, networking, teamwork and leadership.

The associated activities also involve meaningful and constructive use of leisure time.

Motorsport is also an activity that the whole family can compete together in. Motorsport can remove the generation gap where parents and children can be involved with the same interest, grow and evolve together on and off the racing track.

This course, run by the Tarmac Junior Development Program Association of SA and presented by the Volunteer CAMS Car Club members, is not designed to teach young people the specific road rules for driving in the public. It is a course that will introduce families to the CAMS way of life in motorsport. This course will enable participants to acquire driving

skills for future competition use, and develop an understanding of vehicle safety and maintenance.

Junior's who display adequate skills will be encouraged to compete in a motorkhana, khanacross, Hillclimb, sprint or Modern Regularity and may be given the opportunity to use the Junior Development Cars for a small fee throughout the year. If the JDP cars are used in competition events, where partial, an experienced driver will be made available as an instructor.

Optional 2017 CAMS Speed Event Shirt

As you would be aware from the course information there are strict safety guidelines for anyone in the Tarmac JDP course in the cars whether as passenger or driver. One of the mandatory safety rules is that appropriate attire is worn.

To assist you and ensure safety compliance, we will be ordering long sleeved shirts. If you wish to purchase one, you can pre-order to ensure you receive the correct size. They are the same that is available in the CAMS shop, however, includes the Tarmac JDP logo with the year 2017. They are 100% cotton, navy in colour with white Print. They have a cuffed wrist and adhere to flame-resistant outerwear requirements in Schedule D, CAMS Speed and Auto test regulations for all events up to and including national speed events. The cost is \$30 (Same price as direct from the CAMS shop) and needs to be paid at the time of ordering.

The sizes available are from Small to 3XL.

Please refer to the chart and diagram below to determine your size.

We need orders in by 1st July 2017

Other attire safety requirements:

Helmets – supplied by Tarmac JDP.

Participants can bring their own helmet but it must meet Australian Safety Standards

The participant to wear jeans or other full length cotton pants and fully covered shoes are to be leather/suede.

If you have any question, please don't hesitate to e-mail secretary@tarmacjdpasa.org.au
