

Welcome to the May Newsletter.

Dedicated, loyal and passionate – volunteers are the lifeblood of motor sport.

The weekend just gone, CAMS and the FIA celebrated the efforts of volunteers in motor sport with the annual FIA Volunteers Weekend which also coincides with Australia’s National Volunteer Week.

There’s no doubting the impact our volunteer officials have on motor sport. Put simply, without the tireless efforts of our volunteer officials, we simply couldn’t go racing.

2019 has been a busy year so far with our organizing committee doing lots of their own motorsport activities ranging from senior Official roles at State Circuit Racing Championships, Adelaide 500, Australian F1 GP, Bathurst 12 and Bathurst 6 hr to flagging at Laguna Seca and Thunder Hill in the US.

On the 5<sup>th</sup> May, we had members competing at various motorsport events around the country: SMP 6 hour, Peter Hall 6 hour at Mallala, Vic Racing Championships at Phillip Island.

### Working with children check from 1 July 2019

From 1 July 2019, people working or volunteering with children in South Australia must, by law, have a valid child-related clearance.

A working with children check assesses whether a potential employee or volunteer could pose a risk to the safety of children, based on criminal history and child protection information.

This means all volunteers involved in delivering the JDP need a working with children check.

After 1 July 2019, you can apply for a new working with children check online yourself free of charge. I will advise the link in due course.

Walkerville All Car Club have arranged for the MFS to run RAP before their monthly meeting.

17<sup>th</sup> July

6pm to 8 pm with FREE pizza,

What is RAP?

The Road Awareness Program (RAP) is a powerful, hard-hitting road safety presentation delivered by firefighters to both young and experienced drivers across South Australia and interstate. Originally designed for young people in Year 11, its broad appeal and effectiveness has allowed us to expand our reach into workplaces, sporting clubs, correctional services facilities and community groups. Designed to give an open and honest insight into the experience of firefighters working in road crash rescue, RAP seeks to actively engage and empower drivers and other road users through positive peer pressure and its core message: "You get to choose the risk; but you don't get to choose the consequences".

During the 100 minute presentation, participants are given a confronting and realistic insight into road crash trauma including vision of real crashes and crash survivors. Real life crash survivors, many now living with permanent disability or loss of a loved one, share their stories as part of the presentation. Participants usually find this element of the presentation the most emotional, but draw inspiration from the crash survivors' resilience and strength.

Participants learn that road safety is their responsibility and get a clear understanding of the consequences of choices on the road. Firefighters discuss:

- Decision Making, Risk Taking and Choices
- Speaking up when you feel unsafe
- Being a safe passenger and a safe pedestrian
- Attitudes to road use and general change
- Looking after mates
