### **Parents taking photos and video**

Whilst parents are encouraged to record the growth of their children, they are reminded that any photo or video are to be used in a responsible manner.

### **Cybersafety**

Social networking sites like Facebook and YouTube can be a great way for us to promote our sport, our activities and successes. As with offline communities, some social media users can act anti-socially and show disrespect for their online community with little consideration of the social and potentially legal implications. Issues like bullying and harassment, unwanted or inappropriate contact, uploading of inappropriate or offensive content may cause issues for individuals, Tarmac Junior Development Program Assoc of SA, Motorsport Australia Clubs & Club members or Motorsport Australia.

We promote cyber safety by recommending the following

- Use the privacy settings
- Keep your private information private
- Think before you post any content, video, image or text online. You can put it up, but you can't necessarily take it down. Ask before posting images or stories about others. What you see as harmless fun may be embarrassing and humiliating for them and create a poor image for the program.
- Don't project an undesirable self-image of yourself, the JDP, Motorsport Australia clubs and their members or Motorsport Australia
- Choose your friends wisely. Others' inappropriate views and behaviours can reflect badly on you and the program
- Communicate with others as you would do offline, with courtesy and respect

- If you think someone is being bullied or harassed online, speak out. If JDP members are involved, speak to the JDP co-ordinator or another official. The program will not tolerate this behaviour.
